WHAT OTHERS SAY.

When I arrived at my new school, I undertook one-on-one conversations with the classified officers regarding their roles and who and how they line managed and led their teams. One critical theme emerged: these leaders really wanted to learn how to have deep authentic conversations with the individuals in their teams regarding their work. However, they lacked the training and the framework to ensure that these sometimes difficult discussions were successful.

Fierce Conversations teaches these critical skills of leadership. Our entire leadership team has since undertaken the two-day workshop; we now lead through genuine conversation.
